

STADIUM PRO

In addition to being the brightest light in sports, the Ephesus Stadium Pro is built to withstand the harsh elements that exist in an outdoor lighting installation. Don't just take our word for it. We've got independent tests to prove it. The certifications below demonstrate that Stadium Pro can stand up to ice, salt spray, water, high humidity, dust and vibration to provide reliable, maintenance-free operation in demanding outdoor environments.

STANDARD	SECTION	TEST TYPE
NEMA 250 Issued 2009/03/11	5.6	External icing test*
NEMA 250 Issued 2009/03/11	5.7	Hosedown test*
NEMA 250 Issued 2009/03/11	5.10	200-hour salt spray test*
UL 844 13th Ed, June 29, 2012	33	Vibration test
ANSI C136.31-2010	5	Roadway and area lighting equipment – luminaire vibration
IEC 60598-1 Issued 04/16/2008	9.2.2	Dust-tight luminaires
IEC 60598-1 Issued 04/16/2008	9.2.7	Powerful water jet-proof luminaires
UL 8750 1st Ed., Issued 11/18/09, Rev. 10/17/12	8.2	Input test
UL 8750 1st Ed., Issued 11/18/09, Rev. 10/17/12	8.7	Leakage current test
UL 8750 1st Ed., Issued 11/18/09, Rev. 10/17/12	8.12.1	Humidity test
UL 8750 1st Ed., Issued 11/18/09, Rev. 10/17/12	8.12.2	Water exposure test
CSA Standard for Luminaires CSA C22.2#250.0, Issued 9/17/2008 (R2013)		
CSA Standard for Safety for Light Emitting Diode (LED) Equipment for Lighting Applications CSA C22.2#250.13, Issued 1/1/2012.		

*NEMA 4X level

The Stadium Pro has been independently certified to meet many Clauses of the UL 1598 Standard, 3rd Ed., issued 9/17/08, Rev. 10/17/12, including 14.2, 16.4, 16.15, 16.21, 16.41, 16.5.2, 17.1, and 17.2.
